

BATTERY MOUNTS

STEPS MONORAIL

INSTALLATION AND ASSEMBLY

This rail attaches directly to the standard shelf to accommodate a Shimano STEPS battery.

Installation is as easy as 1,2,3!

Tools Required

3mm Allen wrench

1. Line up the STEPS Monorail holes with the holes on the battery shelf.
2. Place bolts into aligning holes and use 3mm Allen wrench to tighten bolts into place.
3. Attach the two ends of the STEPS battery bracket onto the corresponding mounting points of the Monorail using the fastener provided by Shimano.
